Cost Per Lead	2.04
Avg Order Value	167.92

Business Insights

- Highest converting channel: Referral with a 34.57% lead-to-customer rate.
- Lowest performing channel: TikTok Ads converts only 10.99% of leads into customers.
- Highest ROI channel: Referral delivers 43765.7% return on ad spend.
- Largest funnel drop-off: 95.0% of users are lost at the Clicks stage — the biggest leak in the funnel.
- Highest ROI campaign: 'App Install Campaign' with 2345.0% ROI.
- Worst performing campaign: 'Brand Awareness Drive' with 1527.6% ROI — review targeting and creative.
- Best performing country: India generated █7,857,152 in revenue, the highest of all regions.
- Most profitable device: Mobile users generated the highest net profit (█14,830,511).
- Revenue concentration: Referral alone contributes 34.1% of total revenue — a signal of channel dependency risk.

Recommendations

1. Improve ad creative and targeting to lift click-through rate.
2. Reduce or renegotiate ad spend on YouTube Ads — it shows the lowest ROI.
3. Increase budget allocation to Referral to scale high-ROI performance.
4. Optimize ad copy and creatives for LinkedIn Ads to lift its low CTR.
5. Set up retargeting campaigns for users who abandoned the funnel after visiting the landing page.
6. Run A/B tests on landing page layouts, headlines, and CTAs to reduce visitor-to-lead drop-off.
7. Reduce cost-per-lead by shifting spend toward organic and referral channels where feasible.
8. Personalize offers by device and age group based on observed conversion skews.
9. Implement lead-nurturing email sequences to move more qualified leads to paying customers.
10. Introduce loyalty or referral incentives to increase repeat purchase and customer lifetime value.
